THE MARKET ADMINISTRATOR'S

BULLETIN

Ohio Valley Marketing Area
Federal Order No. 33

Eastern Ohio Western-Pennsylvania Marketing Area
Federal Order No. 36

VOL. XXIII-NO. 8

MARVIN A. BAUMER, Market Administrator

AUGUST 1992

Recommended Decision

The U.S. Department of Agriculture is recommending multiple component pricing for milk priced under the Ohio Valley, Eastern Ohio-Western Pennsylvania and Indiana federal milk orders.

Daniel D. Haley, Administrator of USDA's Agricultural Marketing Service, said the multiple component pricing plan for all three orders would price milk based on its protein content as well as its butterfat content. For the first time under the federal order program, protein prices would be adjusted according to the somatic cell content of the milk. The somatic cell content affects the quality of protein and resulting cheese yield.

Haley said multiple component pricing reflects decreasing demand for butterfat and rising demand for nonfat solids, such as protein, that influence the yield of dairy products manufactured from producer milk.

The recommendation for the three orders is based on comments received from dairy producers and handlers during hearings held in Ohio and Indiana in 1990.

The decision also recommends pooling standards for producer milk and pool distributing and supply plants that will be more uniform between the three markets. Proposed amendments to the Ohio Valley and Indiana orders would price some diverted milk at the location of the plant from which it is diverted. The decision would reduce the level of the Indiana Class I price differential and amend the location adjustment provision of the Indiana order. Also recommended are increases in the rate of maximum allowable marketing service assessments for all three

orders, and an increase in the maximum allowable administrative assessment under the Eastern Ohio-Western Pennsylvania order to the level allowable under the other two orders.

Copies of the recommended decision and additional information are available from the Market Administrator, Cleveland Ohio, (216) 826-3220.

Comments should be filed with the Hearing Clerk by September 14, 1992.

"For the first time under the federal order program, protein prices would be adjusted according to the somatic cell content of the milk."

Currently a producer receives the uniform price with adjustments for the butterfat percentage. Under the multiple component system a producer will receive a price based on pounds of butterfat multiplied by the butterfat price, pounds of protein multiplied by the producer protein price (adjusted for somatic cell content) and the weighted average differential multiplied by the total hundredweight of the producer's production.

The table on page 2 shows the somatic cell ranges and what the adjustments would have been using July's cheese prices. The neutral range is 400,000 to 499,999 with adjustments up or down from this range. A producer's somatic cell count will determine the adjustment to the producer's protein price.

(Continued from page 1)

SOMATIC CELL ADJUSTMENT JULY 1992

Somatic Cell Counts	Cheese Price	Constant	Adjustment Per Pound
0 to 99,999	1.3706	X .09375	= .13
100,000 to 199,999	1.3706	X .06250	= .09
200,000 to 299,999	1.3706	X .03125	= .04
300,000 to 399,999	1.3706	X .01562	= .02
400,000 to 499,999	No Adjustment		
500,000 to 599,999	1.3706	X -.01562	= -.02
600,000 to 699,999	1.3706	X -.03125	= -.04
700,000 to 799,999	1.3706	X -.04688	= -.06
800,000 to 899,999	1.3706	X -.06250	= -.09
900,000 and above	1.3706	X -.09375	= -.13

Multiple component pricing hearing

The U.S. Department of Agriculture will hold a public hearing September 9, on proposals that provide multiple component pricing for milk priced under the Southwestern Idaho-Eastern Oregon and Pacific Northwest federal milk orders.

Daniel D. Haley, administrator of USDA's Agricultural Marketing Service, said the multiple component pricing plan for the Pacific Northwest Order would price milk based on its volume and its butterfat and nonfat milk solids content. The proposed pricing plan for the Southwest-Idaho-Eastern Oregon order would price milk based on its volume and its butterfat and protein content.

The hearing will be held at the Sheraton Portland Airport Hotel, 8235 Northeast Airport Way, Portland, Ore., and will begin at 9:00 a.m.

Intermarket Milk Movements

Total pounds of packaged fluid milk (Class I) products sold out of the marketing area by Order 33 plants during the past four months are as follows:

April	20,195,506	May	24,971,772
June	21,815,782	July	15,937,248

Total pounds of packaged fluid milk (Class I) products coming into the Order 33 marketing area but packaged by other federal order plants during the past four months are as follows:

April	38,980,893	May	41,012,938
June	35,411,714	July	33,844,847

Total pounds of packaged fluid milk (Class I) products sold out of the marketing area by Order 36 plants during the past four months are as follows:

April	*22,629,075	May	25,797,853
June	20,796,625	July	19,470,861

*corrected

Total pounds of packaged fluid milk (Class I) products coming into the Order 36 marketing area but packaged by other federal order plants during the past four months are as follows:

April	12,026,261	May	12,415,563
June	10,994,512	July	11,666,755

FEDERAL ORDER 33 MARKET SUMMARY FOR JULY 1992

Gross Class I utilization averaged 3,949,185 pounds per day during July 1992. On a daily basis this was a decrease of 6.1% from the previous month and 5.3% less than July 1991.^{1/}

The July 1992 Class I utilization of producer milk totaled 121,080,482 pounds or 49.6% of the reported producer receipts. This utilization percentage is .1 points less than last month and 4.9 points less than July 1991.^{1/}

The average butterfat test for gross Class I utilization was 2.2% for July 1992.

Receipts from 3,395 producers by 23 pool handlers regulated by Order No. 33 averaged 7,873,788 pounds daily for July 1992. On a daily basis this was 5.9% less than last month and 4.0% more than July 1991.^{1/}

Producers supplying the market increased by 9 from the June 1992 total and decreased by 84 from July 1991. The daily average producer receipts per farm of 2,319 pounds were 152 less than the previous month. On a daily basis this is 141 pounds more than July 1991.^{1/}

The July 1992 Class I price was \$14.10 per hundredweight for 3.5% milk delivered to pool plants in Zone 3. This was 60 cents more than the June 1992 Class I price and \$1.83 more than the July 1991 price. Prices for Class I milk in parts of the marketing area other than Zone 3 reflect the specified location adjustment of minus 24 cents in Zone 1, minus 14 cents in Zone 2, plus 7 cents in Zone 4 and plus 15 cents in Zone 5.

The Class II price for July 1992 was \$12.41. This was 66 cents less than the June 1992 Class II price and \$1.14 more than the July 1991 Class II price.

The Class III price of \$12.59 for July 1992 was 13 cents more than the previous month and \$1.60 more than the July 1991 Class III price.

The August 1992 Class I price will be \$14.50 for 3.5% milk.

^{1/} Comparisons to previous periods are magnified due to changes in the handlers included in the pool.

FEDERAL ORDER 36 MARKET SUMMARY FOR JULY 1992

Gross Class I utilization averaged 4,782,935 pounds per day during July 1992. On a daily basis this was a decrease of 2.0% from the previous month and 0.6% more than July 1991.^{1/}

The July 1992 Class I utilization of producer milk totaled 148,048,347 pounds or 49.1% of the reported producer receipts. This utilization percentage is 1.9 points more than last month and 1.8 points less than July 1991.^{1/}

The average butterfat test for gross Class I utilization was 2.1% for July 1992.

Receipts from 4,459 producers by 32 pool handlers regulated by Order No. 36 averaged 9,730,767 pounds daily for July 1992. On a daily basis this was 5.8% less than last month and 3.0% more than July 1991.^{1/}

Producers supplying the market decreased by 26 from the June 1992 total and decreased by 189 from July 1991. The daily average producer receipts per farm of 2,182 pounds were 121 less than the previous month. On a daily basis this is 150 pounds more than July 1991.^{1/}

The July 1992 Class I price was \$14.06 per hundredweight for 3.5% milk delivered to pool plants. This was 60 cents more than the June 1992 Class I price and \$1.83 more than the July 1991 price.

The Class II price for July 1992 was \$12.41. This was 66 cents less than the June 1992 Class II price and \$1.14 more than the July 1991 Class II price.

The Class III price of \$12.59 for July 1992 was 13 cents more than last month and \$1.60 more than the July 1991 Class III price.

The August 1992 Class I price will be \$14.46 for 3.5% milk.

^{1/} Comparisons to previous periods are magnified due to changes in the handlers included in the pool.
